SUMMARY

I am an experienced full-stack web developer with 5 years of expertise in creating dynamic and interactive applications. Proficient in a wide range of technologies including React, Angular, Node.js, and Laravel, I specialize in delivering high-quality solutions tailored to meet client needs. My background in software engineering has equipped me with strong problem-solving skills and the ability to work well in collaborative environments. I have successfully led teams in the development of MERN and React Native projects, integrating features such as video calling and real-time chat systems. I am passionate about continuous learning and adapting to new technologies to stay up-to-date with industry standards. Currently seeking opportunities to leverage my skills and contribute to innovative projects.

WORK EXPERIENCE
